

Turning Meditation of the Mevlevi-Dervishes

*Ya Hazreti Mevlana - Venerated Master -
You are the door for ever open.*

*Leading to enlightenment those who live in dust and the exalted.
Sun, moon and all the stars are at your service.*

Calligraphy on the sikke of Rumi, Konya

The seminar offers a practical introduction to the Mevlevi turning tradition based on a specific way of breathing - the *zikhr*. For those already practicing, it is an opportunity to deepen their experience.

On Sunday, Oct 20th, we could hold a *mukabele*, provided we are a minimum of three already experienced semazen.

Maria-Gabriele Wosien, Munich, leads the seminar. She learned the turning meditation in 1965, and has since then been in contact with members of the Mevlevi tradition, whose origin goes back to the Sufi mystic Jeleddin Rumi.
